Profile

A java programmer with 15 years of experience as web / backend developer. I like to implement complicated things in a simple way. Programming is my hobby.

Some of my achievements:

- I wrote my own Linux
- I had a [FreeBSD installer](#) with root on ZFS before official one
- One of [my plugins](#) for Emacs is a part of Org Mode

Work Experience

II 2024- present

Objectivity / Accenure – IT consulting

Programmer

Projects:

- Upgrading installers to a higher version of IzPack

Used tech: Spring, Kotlin, Postgresql, IzPack.

V 2017- I 2024
